## What can be done to improve Arthritis in Lincoln Trail ADD?

### Individuals

Low impact physical activity can lessen arthritis pain and stiffness. Proven self-management and physical activity programs such as the Chronic Disease Self-Management Program, Enhance Fitness, and Walk with Ease are available in most areas of Kentucky through your Area Agency on Aging and Independent Living, local health department, Senior Center, or YMCA.

### Health Care Providers

Prescribe low impact physical activity appropriate for those with arthritis. Refer patients to evidence-based interventions such as those listed above to help reduce symptoms and improve health and overall quality of life.
